

## HISTORY

Since 1988, we have specialized in the development, manufacturing, and distribution of protective infection control solutions.

At Cranberry, we stress utmost importance on providing products of superior quality. Therefore, we constantly strive to develop products with the highest protection, comfort, and strength. After thriving in this industry for so many years, we truly understand your needs and demands as a professional. Be assured that our dynamic team is always moving forward, researching, and seeking to provide you with only the best.

We have established successful partnerships in many countries. Even so, we are excited to expand our networks and distribution further so that Cranberry gloves are made available in every country.

As a professional, you are passionate about the health and comfort of your clients. At Cranberry, we are passionate about yours.

---

## FIRST TOUCH

In an average manufacturing process, gloves and masks may come in human skin contact up to 8 times. With ultimate hygiene in mind, Cranberry products are First Touch® manufactured, examined, and packaged with zero direct skin contact exposure. Don't just put on any gloves and masks, look for our First Touch® logo and be assured that you are doing the best you can to protect yourself and your patients.
